

COMP500 / ENSE501: Week 12 – Exercise:

EXERCISE NAME: *Coloured Boxes*

Using `p1colour.h` and `p1colour.lib`, create a program which outputs the following:

```

12345678901234
A      A
B  +-----+  B
C  | +---+ |  C
D  |  ^  |  D
E  |  v  |  E
F  | +---+ |  F
G  +-----+  G
H      H
12345678901234
  
```

Creating modular and reusable functions will greatly help the development of this program!

Ensure the program output is exactly as described, and that the whitespace of your source code is well formatted.
